SPRING /  
SUMMER 2024

# *A season of cosy living*

Spring is an instant mood booster and so is this collection. We explore a multitude of colours, metals and striking patterns in vases, furniture and home textiles to prepare your home for a new season filled with harmony.

New glassware, dinnerware and plate stands update the table setting for that extra bit of sophistication. Our Pion and Rustic series are extended, while a new series called Pleat introduces a ribbed design for any occasion.

Each piece is ideal for homes and rooms of any size. Add the final detail with a rug or create intimate spaces in your large living room. With so many textures, finishes and looks, all needs are met in this comprehensive collection.
