About us

Meraki is a welcoming universe of comfort and wellness that invites you to turn daily self-care into moments of calm. Because life goes by in the blink of an eye. We are busy making plans, going places, helping others. And sometimes we forget to take care of ourselves in the process.

Our skincare products fill your self-care routine with gentle, nourishing ingredients, carefully selected for their positive qualities, proven effects, and natural fragrances. Designed and developed in Denmark, they are inspired by Scandinavian aesthetics and created with love and respect for everything nature has to offer. When we develop new products we work with certifications, but we never compromise when it comes to effect and fragrance.

We believe that a natural and relaxing aesthetic in your bathroom is vital to make the most of your self-pampering. Whether you enjoy a soothing bath or apply a face mask, do so in a space that reflects the balance and serenity you are searching for. Our bathroom accessories, from trays to towels and scented candles do just that.

Meraki cannot be held responsible for possible errors, changes or price increases.

[pampering kits]

The Hand Kit offers much-needed indulgence for hands that are exposed and sometimes overlooked. Nurturing and nourishing formulations provide smoother, softer, and more supple skin, while the nail kit ensures the finishing touch.

[hands]

Dine hænder ældes lige som huden i dit ansigt, men er mere udsatte og til overraskelse. Giv dem noget velfortjent pleje med nærende ingredienser, der gør huden glattere, blødere og mere smidig.

SÅDAN BRUGER DU PRODUKTERNE

Første skridt til velplejede hænder er at bruge neglekittet på nyvaskede, tørre hænder. Skub neglebåndene tilbage, klip neglene til og fil dem, så de har den ønskede facon.

Serummet beroliger, udglatter og binder fugten med hyaluronsyre, sheasmør og agurkeekstrakt. Lad det gerne virke natten over.

Slut af med cremen, som ligeledes plejer, fugter og blødgør huden.

Tag en dybt indånding. Find roen.
Forkæl dig selv med en velvære i afslappede omgivelser.

[pampering kits]

The Body Kit provides extra moisture and care for the skin, revitalizing it, infusing antioxidants, and soothing it with nourishing ingredients.

[body]

Tag en velfortjent times pause og forkæl dig selv med ekstra steps i hudplejen. Din hud eksfolieres, får et fugtboost og beroliges med nærende ingredienser.

SÅDAN BRUGER DU PRODUKTERNE

Brug scrubben under bruseren til at fjerne døde hudceller og gøre huden glattere og mere smidig. Slut af med lotionen, der forkæler din hud med kakaosmør og mandelolie.

Trænger ansigtet også til et boost? Påfør sheet masken, som er udviklet til sensitiv hud og indeholder plejende aloe vera, agurk og tomat.

Roll-on deodoranten modvirker lugte og absorberes hurtigt, mens læbepomaden med shimmer-effekt giver masser af pleje og lugt.

Tag en dyb indånding. Find roen.
Forkæl dig selv med ren velvære i afslappede omgivelser.

[pampering kits]

The Foot Kit gives tired feet well-deserved care and pampering with ingredients that deeply moisturise, nourish, and refresh.

[feet]

Forkæl trætte fødder med plejende ingredienser, der fugter i dybden, nærer og genopfrisker.

SÅDAN BRUGER DU PRODUKTERNE

Første skridt til velplejede fødder er at give dem et varmt fodbad. Kom fodbadesaltet i en balle med vand og nyd duften af eukalyptus, mynte og lime.

Brug demåst neglekittet på de nyvaskede, tørre fødder. Fil fødderne, skub neglebåndene tilbage, klip neglene til og fil dem, så de har den ønskede facon.

Slut af med cremen, der fugter i dybden, plejer og blødgør dine fødder. Lad den gerne virke natten over.

Tag en dyb indånding. Find roen.
