About us

Meraki is a welcoming universe of comfort and wellness that invites you to turn daily self-care into moments of calm. Because life goes by in the blink of an eye. We are busy making plans, going places, helping others. And sometimes we forget to take care of ourselves in the process.

Our skincare products fill your self-care routine with gentle, nourishing ingredients, carefully selected for their positive qualities, proven effects, and natural fragrances. Designed and developed in Denmark, they are inspired by Scandinavian aesthetics and created with love and respect for everything nature has to offer. When we develop new products we work with certifications, but we never compromise when it comes to effect and fragrance.

We believe that a natural and relaxing aesthetic in your bathroom is vital to make the most of your self-pampering. Whether you enjoy a soothing bath or apply a face mask, do so in a space that reflects the balance and serenity you are searching for. Our bathroom accessories, from trays to towels and scented candles do just that.
